Subject: Revised Prioritization HP RTC - for quick review and transmittal to OPPT IO
Attachments: Prioritization_RtC_General and HP_12.03.2019.DDs.OGC.clean.docx; Prioritization_RtC_General and HP_12.03.2019.DDs.OGC.redline.docx

Hi Everyone,

Ana and Niva have addressed all the comments received from DDs and OGC. Things of note and requiring action from the divisions -

Ex. 5 Deliberative Process (DP)

The latest schedule for the RtC (and FRN) that Tanya shared with the OPPT IO has the document going to the OPPT IO/OCSPPT IO for concurrent review by noon today. Rather limited time for DDs/OGC to do a quick review of the responses. So in the interest of a very small pit of sanity, every minute adds a little bit. Please provide any revisions/comments no later than 1 pm today on the clean version and we will aim to send the RtC to the OPPT IO by 3 pm today.

Many thanks to Ana and Niva for keeping the RtC close to the crazy schedule!

Thanks, Joel
